600 S. Commonwealth Ave.
Parking is also available across the street from the
Superior Court Building for (\$8.00)

The DMH provides a safe and healthful workplace for its employees by preventing or minimizing occupational exposure to blood or other potentially infectious materials, and by protecting, through vaccination and follow-up, DMH employees that are at-risk for occupational exposure. This is as defined in Section 6.0 of the DMH Bloodborne Pathogen Exposure Control Plan (BBPECP). Employees will receive a copy of the BBPECP at the time of the training. This training will cover: identification and prevention of exposure; post exposure treatment and follow up; and reporting and record keeping.

THIS IS A YEARLY MANDATORY TRAINING FOR EMPLOYEES WHO CURRENTLY GIVE INJECTIONS AS PART OF THEIR WORK DUTIES.

OBJECTIVES: As a result of attending this training, participants should be able to:

1. Describe how to locate a copy of the California Code of Regulations Bloodborne Pathogen Standard, Title 8, Section 5193.
2. Explain the contents of the Bloodborne Pathogen Standard.
3. Explain the epidemiology and symptoms of bloodborne diseases.
4. Describe how to locate a copy of the DMH BBPECP.
5. Identify tasks that could result in exposure to bloodborne pathogens.
6. List four work practice methods and two engineering controls that will prevent or reduce exposure to bloodborne pathogens.
7. Describe types, proper use, location, removal, handling, decontamination, and disposal of personal protective equipment.
8. Explain the efficacy, safety, administration, and benefits of the Hepatitis B vaccination, provided at no cost to the employee.
9. Describe appropriate actions to take and persons to contact in an emergency involving blood or other potentially infectious materials.
10. Explain the procedure to follow if an exposure incident occurs, including reporting and medical follow-up.
11. Discuss treatment, post-exposure evaluation, and follow up that DMH is required to provide, at no cost to the employee.
12. Describe biohazardous waste signs and labels, color-coding, and procedures for obtaining these materials.
